PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in AI & ML with hands-on experience in software development, web applications, AI-powered solutions, and database systems. Skilled in JavaScript, React.js, Java, Python, FastAPI, MySQL, and REST APIs. Built full-stack applications integrating machine learning and modern web technologies. Strong problem-solving abilities with experience in internships, technical projects, hackathons, and collaborative development environments.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS3

Frontend Technologies: React.js, Tailwind CSS, Bootstrap, Responsive Web Design, Vite

Backend & APIs: FastAPI, REST APIs

Database: MySQL

AI / ML & Libraries: XGBoost, AI integration through API, Demand Forecasting, Numpy, Pandas, Matplotlib

Tools & Platforms: Git, GitHub, VS Code, Recharts, vercel

Core Concepts: Data Structures & Algorithms, OOP, Database management, Context API, Authentication, Role-Based Access Control, API Integration

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering (AI & ML) 2023 – 2027

Sri Venkateswara College of Engineering, Tirupati, Andhra Pradesh | CGPA: **8.73 / 10.0**

Intermediate (MPC) – Class XI & XII 2021 – 2023

Vamsi Junior College, Srikalahasti, Andhra Pradesh | Percentage: **92.4%**

Secondary School Certificate (SSC) – Class X 2021

Sri Swamy Vivekananda High School, Srikalahasti, Andhra Pradesh | Percentage: **100%**

PROJECTS

SmartStock – AI-Powered Inventory Management System Infosys Springboard Internship 6.0

Tech Stack: React.js, FastAPI, MySQL, XGBoost, Gemini AI, REST APIs

- Developed SmartStock, an AI-powered inventory management system using React.js, FastAPI, MySQL, and XGBoost.
- Implemented inventory management, role-based authentication, analytics dashboards, and real-time stock monitoring.
- Integrated a Gemini AI chatbot and machine learning-based demand forecasting for intelligent inventory insights.

Real-Time Weather Application Personal Project

Tech Stack: React.js, External Weather API, CSS3

- Built a responsive weather app displaying real-time temperature, humidity, wind speed via third-party API integration. Dynamic UI updates ensuring a clean user experience across all devices.

CERTIFICATIONS & TRAINING

- Artificial Intelligence Fundamentals – IBM
- AI on AMD AI PC – AMD
- React.js Development – Completion Certification
- Deloitte Technology Virtual Job Simulation – Forage
- Infosys Springboard Virtual Internship 6.0
- Welcome to ServiceNow Certification from SNU

KEY ACHIEVEMENTS

- Successfully designed and delivered SmartStock, an AI-powered inventory management system, during Infosys Springboard Internship 6.0. Led my team during the internship
- Participated and won in college-level technical events, demonstrating problem-solving skills.
- Built multiple web and AI-integrated projects applying industry-standard tools and best practices in UI/UX, API integration, and machine learning.
